

WE ARE LOOKING FOR: WORKING STUDENT SOFTWARE DEVELOPMENT (W/M/D)

ABOUT US

As an independent service company, we have stood for software and systems engineering and digital training for more than 20 years. We support companies in the field of mechanical and plant engineering to improve the quality of software components and to optimize development processes. We offer you a secure job in an international company shaped by its people. You can look forward to having nice colleagues, flat hierarchies, and the opportunity to actively help shape the company. Become part of our dedicated team!

WHAT WE EXPECT FROM YOU:

- Technical studies (mechatronics, mechanical engineering, automation technology, etc.) near our locations: Garching, Duisburg, Berlin
- Enthusiasm for software and systems engineering
- You have basic knowledge of programming (Python, C #, JavaScript, ...) and would like to develop it further
- You are interested in the fields of AI, web development, simulation, control technology, ...
- You are willing to learn in a team and enjoy passing on your own experiences
- Good language skills in German and English
- You can get involved in our team 1,5 to 2 days a week, even more, if you like

WHAT WE OFFER YOU:

We offer you the opportunity to get involved in a young and highly motivated team. Trust and flexibility on both sides are our top priorities. For us, humour and fun at work are just as important as keeping a cool head in stressful situations and dealing with deadlines. We care about:

- Respect and trust in the team
- Flat hierarchies and friendly cooperation
- Flexible working hours and home office days
- Varied working environment
- Individual development opportunities
- Regular team events
- Good transport links and parking space

Are you curious? We look forward to receiving your application!

Use our online form on our website to submit your application or send it by E-Mail to jobs@itq.de.
